# User interface overview

## Main screen – Search tab (First search)

1. Application tabs
2. Change password / Log out buttons
3. Filters
4. Clear all filters button
5. Search button

## Search tab (Second search)

1. Activate / Hide column(s)
2. Filters
3. Search result list
4. Back button (back to First search)

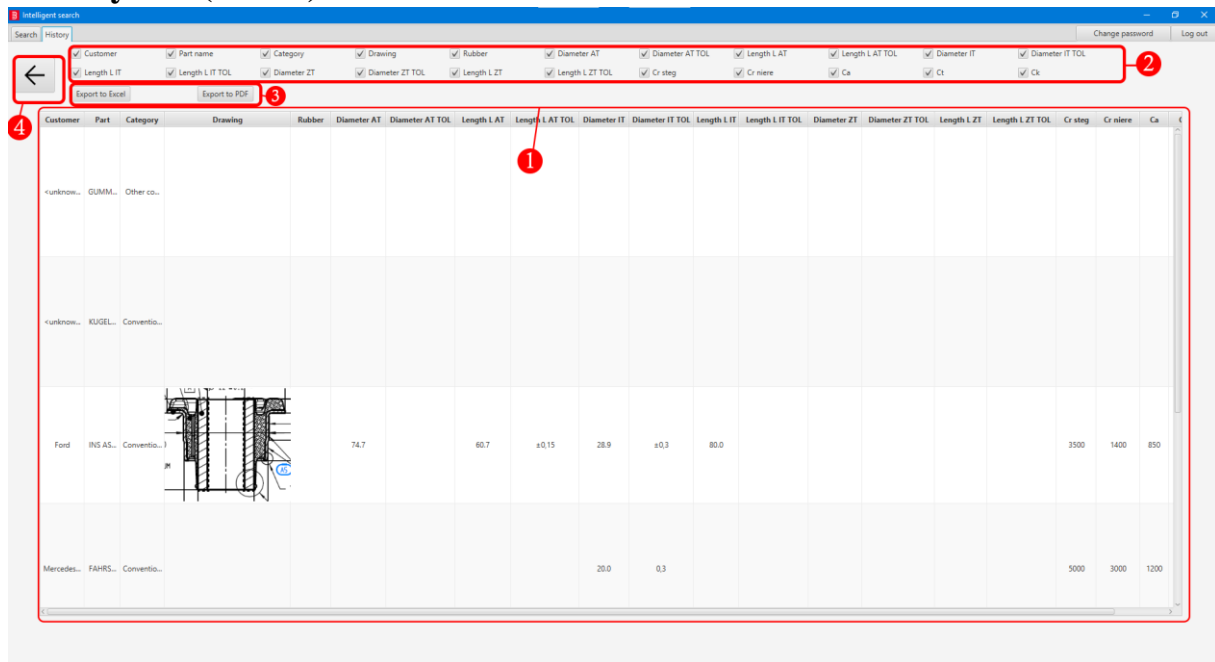

5. Confirm / Save search
6. Checkbox for selecting desired search result(s)
7. Edit category button

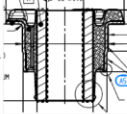

## History tab (Main)

## Log in/out and password management

### Log in

Intelligent search - Login

Username:

Password:

1. Type in **your username** and **password**.
2. Click on **log in icon** or press **Enter** key on your keyboard. In case of an error, a text message will be shown.

## Log out

1. Click the **Log out** button located at the top right corner. Window will close and you will be greeted with log in window.

# Change password

The screenshot shows the 'Intelligent search' application window. In the top right corner, there is a 'Change password' button, which is highlighted with a red box and a red circle containing the number 1. The interface includes a search bar, a history tab, and several filter buttons: 'Filter by part name', 'Filter by customer', and 'Filter by category'. Below these are multiple filter groups, each with a 'From' and 'To' input field and a 'Choose priority' dropdown menu. The filter groups are: Diameter AT, Length L AT, Diameter IT, Length L IT, Diameter ZT, Length L ZT, Cr Steg, Cr Niere, Rubber, Ca, Ok, and Ct.

The screenshot shows the 'Change password' dialog box. It has a title bar with a red 'X' icon. The main content area is titled 'Change your password'. There are three input fields: 'Old password:', 'New password:', and 'New password:'. The 'Old password:' field is highlighted with a red box and a red circle containing the number 2. The 'New password:' fields are highlighted with a red box and a red circle containing the number 3. To the right of the input fields is a 'Change Password' button, which is highlighted with a red box and a red circle containing the number 4.

Change password

Change your password

1. Click on the **Search** tab.
2. (Optional) Apply **filters**.
  - a. (Optional) Click on **Filter by part name** button, new window will open, select desired part name(s) and confirm your choice. When filter is applied button background is darker, indicating that filter is active.

- b. (Optional) Click on **Filter by customer** button, new window will open, select desired customer(s) and confirm your choice. When filter is applied button background is darker, indicating that filter is active.
  - c. (Optional) Click on **Filter by category**, new window will open, select desired category(es) and confirm your choice. When filter is applied button background is darker, indicating that filter is active.
  - d. (Optional) Type in values in text fields of any desired parameter(s).
  - e. (Optional) Assign priority for any desired parameter(s).
3. Click on **Search** button. Results of your search will be shown on your screen.

## Saving search results

The screenshot displays the 'Intelligent search' application window. The top section contains various filter checkboxes for parameters like Part number, Customer, Part name, Category, Drawing, Rubber, Diameter AT, Diameter AT TOL, Length L AT, Length L AT TOL, Diameter IT, Diameter IT TOL, Length L IT, Length L IT TOL, Diameter ZT, Diameter ZT TOL, Length L ZT, Length L ZT TOL, Diameter IT, Diameter IT TOL, Length L IT, Length L IT TOL, Diameter ZT, Diameter ZT TOL, Length L ZT, Length L ZT TOL, Cr stag, Cr niere, and Ca. Below the filters, there are two buttons: 'Order by priority' and 'Order by popularity'. A red box highlights these buttons. To the right of the filters, there is a 'Save' button (floppy disk icon) and a 'Log out' button. A red box highlights the 'Save' button. The main area of the application is a table with columns: Submit, Add Cate..., Part number, Customer, Part name, Category, Drawing, Rubber, Diameter AT, Diameter AT TOL, Length L AT, Length L AT TOL, Diameter IT, Diameter IT TOL, Length L IT, Length L IT TOL, Diameter ZT, Diameter ZT TOL, Length L ZT, Length L ZT TOL, Cr stag, Cr niere, and Ca. The table contains several rows of data. The first row is highlighted in light blue. A red box highlights the first row. Below the table, there are two technical drawings of a mechanical part. A red box highlights the first row of the table and the technical drawings. A red box highlights the first row of the table and the technical drawings.

1. **Perform search.** Check **Performing search** chapter for more details.
2. (Optional) Result **ordering**. Following options are **mutually exclusive**.
  - a. (Optional) Order your results by **priority**.
  - b. (Optional) Order your results by **popularity**.
3. Navigate the result(s) and **select desired parts** by clicking on the **checkbox(es)**.
4. Click on the **save** button, new window will open.
5. (Optional) Click on **Export to PDF** or **Export to Excel** to **export** your results. You will be prompted to **select location** where it will be **exported**.
6. Click on **Save to history** button to **save your search** and **finish the search**. After that you will be returned to main screen - First search.

## Exporting

1. Exporting is associated with **searching**. Check **Performing search** and **Saving search results** chapters for more details.

**Note:** For export to work, path to save file can't contain diacritics, i.e. ´ or ˇ

# History

## Browse history

1. Click on the **History** tab. (History should be refreshed automatically on entering this tab, if no use manual refresh, see History tab (Main) section)

2. (Optional) History **filtering**.

a. (Optional) Click on **Filter by category** button, new window will open, select desired category(es) and confirm your choice. When filter is applied button background is darker, indicating that filter is active.

3. View results.

1. **Browse history.** Check **Browse history** chapter for more details.
2. Click on desired row. Selected row will be **highlighted**.
3. Click on open row button (**Button is only enabled when only one row is selected**).

Or

4. Double click on the desired row.
5. History detail will be shown on your screen.
6. (Optional) Click on **Export to PDF** or **Export to Excel** to export.

## Deleting history

1. **Browse history.** Check **Browse history** chapter for more details.
2. **Row selection.**
  - a. To select only one row, left click on the row. Selected row will be highlighted.

- b. To select multiple rows from start to end, left click on any row to select the start, then while holding the left Shift key left click on the end row. Selected row(s) will be highlighted.
  - c. To select multiple rows, while holding the left Shift key left click on any other row you wish to add to your selection. Selected row(s) will be highlighted.
3. Click on the **Bin icon**, new window will open.
4. Click the **confirm** button to **confirm the deletion**. Selected row(s) will be **permanently deleted**.

## Exporting

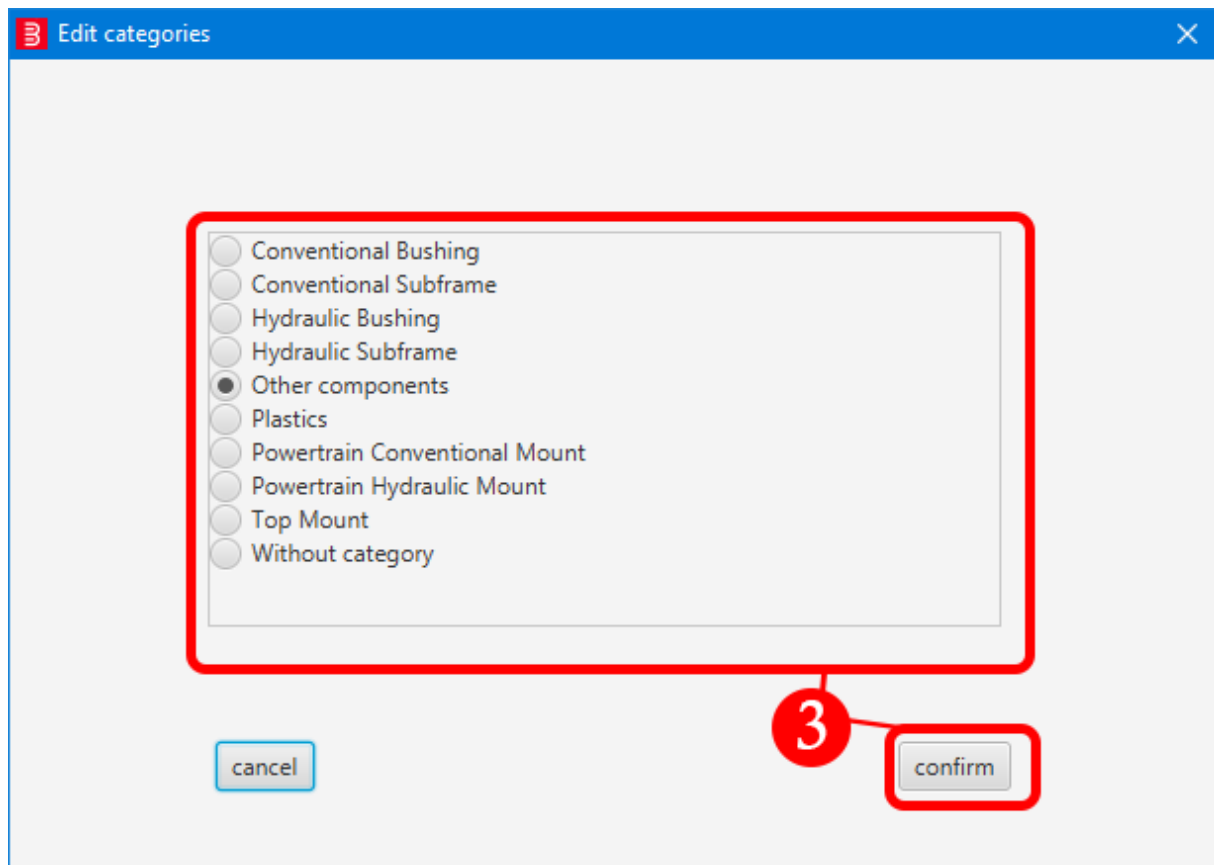

1. Exporting is associated with **History detail**. Check **History detail** chapter for more details.

**Note:** For export to work, path to save file can't contain diacritics, i.e. ´ or ˇ

## Category management

### Change part category

1. **Perform search.** Check **Performing search** chapter for more details.
2. Click on the **edit icon**, new window will open.
3. Select **new category** from the list and **confirm** your choice. The window will close and part category will be updated.

**Note:** You can only change category for parts that are without category i.e. Their category is "Without category".
